Facilities in the Virginia Excellence Program are required to report on their program commitments annually by May 20th for the previous calendar year.

For more information on the VEEP Program, including an overview of the reporting system, example of completed report and FAQ's, please visit the [official program website](#).

New Contacts for Facilities Previously Reporting: Please [register](#) for access.

Log in using your User ID and Password that you have used in the past.

This will let you into the VEEPOnline system. From there you will need to request access to your facility.

Welcome Screen – Returning Users

Overview

Thank you for using the VEEP online reporting system. From this page, you can start a new annual report or, if a facility is listed below, you can access existing documents.

For assistance in using the system, please read our [help manual](#). For additional information on VEEP, go to the program's [official website](#).

Reports are due by May 20th for the previous calendar year.

- [Request](#) access to other reports.

Current Reporting Year (2010)

	Facility Name	Reporting Year	Status
View	Virginia Dept of Environmental Quality	2010	Item 1 to 1 of 1

Previous Reporting Years

	Facility Name	Reporting Year	Status
View	Virginia Dept of Environmental Quality	2009	Approved
View	Virginia Dept of Environmental Quality	2008	Approved
View	Virginia Dept of Environmental Quality	2007	Approved
View	Virginia Dept of Environmental Quality	2006	Approved

Once you log in you will be brought to the Overview page, but your facility will not be listed.

You need to request access to your report using the request link.

Request Access to Another Report

Please identify your facilities by moving the names from the "Available VEEP Facilities" box to the "Selected VEEP Facilities" box. VA DEQ will review your access request. Consequently, the report will not be available immediately.

Select one or more facility:

Available VEEP Facilities

99th RRC - Abingdon Memorial USARC (multiple facility report)
Albemarle County - General Services Department
Albemarle County Public Schools
Albemarle County - Parks and Recreation Department
Alcan Packaging Food & Tobacco Inc.
Altria Client Services Headquarters
Atlantic Waste Disposal
Augusta County Government Center
Augusta County High Schools - Buffalo Gap (multiple facility report)
Augusta County Service Auth - Fishersville WWTP

* Selected VEEP Facilities

If your facility is not shown, contact Keith Boisvert at (804) 698-4225 or Keith.Boisvert@deg.virginia.gov or Meghann Slattery at (804) 698-4122 or Meghann.Slattery@deg.virginia.gov

Cancel

Submit

The Request Access to Another Report screen will appear.
Chose which VEEP facility or facilities you need access to using the arrow (>)
and click submit.
Once you submit the request access will be granted within 2 hours.

Questions

- Will I need to register every year?
 - No, once you establish a user ID and password in the new system you can use it in following years.
- What if I forget my password?
 - Use the Forgot Password? link on the login page.
- Can multiple users have access to my facility?
 - Yes, multiple users can have access to a facility.

Questions

- What if my facility is not on the 'Available VEEP Facilities' list?
 - Contact Keith Boisvert at (804) 698-4225 or keith.boisvert@deq.virginia.gov or Meghann Slattery at (804) 698-4122 or meghann.slattery@deq.virginia.gov.
- What if I submit a request for access but I am not able to login after 2 hours?
 - Contact Keith Boisvert or Meghann Slattery

Impact Reports

Impact Reports

* indicates required field

- **To the extent possible**, on the following pages, quantify the results of the facility's environmental management system and/or pollution prevention program.
- **Commitments:** starting in 2005, VEEP facilities are required to make commitments and to track impact reductions. These commitments are typically for at least the term of membership (3 years). Commitments differ for the various levels of VEEP participation:
 - E2 - must commit to and track reductions for at least 1 impact.
 - E3 - must commit to and track reductions for at least 2 impacts
 - E4 - must commit to track reductions for at least 3 impacts and report on commitments to sustainable environmental progress and community involvement. (This information should be entered in the "Outreach to the Public" section in the EMS update section)
- Please contact Keith Boisvert at (804) 698-4225 or keith.boisvert@deq.virginia.gov or Meghann Slattery at (804) 698-4122 or Meghann.Slattery@deq.virginia.gov if you have any questions or concerns about this form.

Select a category, indicator, and normalizing basis to report on, then press the "Add" button.

Note that members should not select a combination of indicators that would lead to double counting of environmental impacts. See the instructions for double counting examples.

* Category * Indicator * Normalizing Basis

	Category	Indicator	Basis
Remove	Energy Use	Total Energy Use	Square footage of facility

All environmental commitments that were reported on last year are listed here

Page: 1 of 1 Go Page size: 1 Change Item 1 to 1 of 1

Impact Reports – New

If it is the first year of reporting for an environmental commitment, a new impact report will need to be added.

To add new reporting commitments use the 'Category', 'Indicator', and 'Normalizing Basis' drop down menus and hit add.

First choose a category.

* Category * Indicator * Normalizing Basis Add

Materials Use

- Air Emissions
- Energy Use
- Land Use
- Materials Use
- Product Performance
- Waste
- Water Discharges
- Water Use

Indicator	Basis
Total Energy Use	Square footage of facility

Page: 1 of 1 Go Page size: 1 Change Item 1 to 1 of 1

Back Next

Impact Reports – New

Second, chose an Indicator.

'Indicator' options are based on the 'Category'. See Attachment 1 at the end of the VEEP Annual Report Instructions -2011 for all options.

Note: Units will be chosen later.

* Category:

* Indicator:

* Normalizing Basis:

Category	Basis
Remove Energy Use	Square footage of facility

Page: 1 of 1 Go Page size: 1 Change Item 1 to 1 of 1

Impact Reports – New

Third, chose the “Normalizing Basis”.

Dollar Value of products sold
Number of Employees
Number of products sold
Square Footage of facility

Employee hours worked
Number of production hours
Units of products produced

Then, click “Add” to create the new report

* Category: Materials Use * Indicator: Recycled Material Use * Normalizing Basis: Number of employees

	Category	Indicator	Basis
Remove	Energy Use	Total Energy Use	Square footage of facility

Page: 1 of 1 Go Page size: 1 Change Item 1 to 1 of 1

Impact Reports

* Category: Materials Use * Indicator: Recycled Material Use * Normalizing Basis: Number of employees Add

	Category	Indicator	Basis
Remove	Energy Use	Total Energy Use	Square footage of facility
Remove	Materials Use	Recycled Material Use	Number of employees

Once “Add” is clicked the Impact Report will be added to the list.

Page: 1 of 1 Go Page size: 2 Change Item 1 to 2 of 2

Back Next

NOTE: Each reporting commitment must have a unique category/indicator/normalizing basis combination.

For example these combinations are valid because they have a different normalizing basis.

- waste / hazardous waste recycled / *square footage of facility*
- waste / hazardous waste recycled / *employee hours worked*

However, the program will not allow identical combinations.

- waste / hazardous waste recycled / *square footage of facility*
- waste / hazardous waste recycled / *square footage of facility*

Impact Report – Example

* Category: * Indicator: * Normalizing Basis:

	Category	Indicator	Basis
Remove	Energy Use	Total Energy Use	Square footage of facility
Remove	Materials Use	Recycled Material Use	Number of employees

Page: of 1 Page size: Item 1 to 2 of 2

Now that all the environmental impact reports are listed, let's complete an example report. To begin click "Next."

If necessary, impact reports can be added or removed later.

Impact Report – Step 1

Environmental Impact Reporting

* indicates required field

Category: Materials Use

Indicator: Recycled Material Use

* **Step 1:** Additional Information on Environmental Results (e.g., how did you achieve the reductions? If there were increases, what was the reason?):

Answer question in space provided.

Note: If this is a new report added this year, the box will be empty like the one above.
If this is not the first year reporting on this impact, additional information from the impact report for this environmental impact from the previous year *should* automatically fill in. Update information as necessary.

Impact Report – Step 2

* **Step 2:** Normalizing Basis: Number of employees

Normalizing Basis Notes:

Provide any notes necessary in the space provided.

Note: If this is a new report added this year, the box will be empty like the one above.
If this is not the first year reporting on this impact, normalizing basis notes from the previous year *should* automatically fill in. Update information as necessary.

Impact Report — Step 3 for existing reports

For existing impacts reports, you will be requested to enter the Baseline Normalizing Quantity, Reporting Year (2010) Actual quantity and Normalizing quantity, and given the chance to change the units.

"avoided".

NOTE: To change a previous year "Actual Quantity" or "Normalizing Quantity" or if you need further assistance, contact Keith Boisvert at (804) 698-4225 or Keith.Boisvert@deq.virginia.gov or Meghann Slattery at (804) 698-4122 or Meghann.Slattery@deq.virginia.gov

	2008	2009	2010	2011
Actual Quantity	1194.2	994.3	0.0000	
Normalizing Quantity	0.0000	0	0.0000	
Normalizing Factor	1	N/A	N/A	
Normalized Quantity	1194.2	N/A	N/A	
Unit	MWh			

Calculate

The Normalizing Factor (ratio) will be calculated for you

The Normalizing Quantity is what you are using to normalize. For example if you chose square footage of facility as the normalizing basis enter the actual square footage of the facility for that year into the box.

Note: Once you enter the normalizing quantity for the baseline year and hit calculate, information for years between the baseline and the current reporting year will be set and you will NOT be able to change it on existing reports.

Do not hit calculate until you are sure of the baseline normalizing quantity.

Impact Report — Step 3 for new reports

For new impacts reports, you will be requested to enter the Baseline and Reporting Year data actual quantities for the environmental impact and your Normalizing Quantity and to chose your units from the drop down menu.

* **Step 3:** Provide **actual** quantities in the row specified; do not report the change from one year to the next, or the quantity "avoided".

NOTE: To change a previous year "Actual Quantity" or "Normalizing Quantity" or if you need further assistance, contact Keith Boisvert at (804) 698-4225 or Keith.Boisvert@deq.virginia.gov or Meghann Slattery at (804) 698-4122 or Meghann.Slattery@deq.virginia.gov

	2009	2010	2011	2012
Actual Quantity	<input type="text" value="0.0000"/>	<input type="text" value="0.0000"/>		
Normalizing Quantity	<input type="text" value="0.0000"/>	<input type="text" value="0.0000"/>		
Normalizing Factor	1	N/A		
Normalized Quantity	0	N/A		
Unit	<input type="text"/>			
	<input type="button" value="Calculate"/>			

The Normalizing Quantity is what you are using to normalize.
For example if you chose number of products sold as the normalizing basis enter the actual number of products sold for that year into the box.

The Normalizing Factor (ratio) will be calculated for you when you hit "calculate."

Impact Report — Step 3 Units

Enter the Actual Quantity data in units that you chose with the drop down box.
Hit Calculate to calculate your Normalizing Factor (ratio) and normalize data.

* **Step 3:** Provide **actual** quantities in the row specified; do not report the change from one year to the next, or the quantity "avoided".

NOTE: To change a previous year "Actual Quantity" or "Normalizing Quantity" or if you need further assistance, contact Keith Boisvert at (804) 698-4225 or Keith.Boisvert@deq.virginia.gov or Meghann Slattery at (804) 698-4122 or Meghann.Slattery@deq.virginia.gov

	2008	2009	2010	2011
Actual Quantity	1194.2	994.3	<input type="text" value="0.0000"/>	
Normalizing Quantity	<input type="text" value="0.0000"/>	0	<input type="text" value="0.0000"/>	
Normalizing Factor	1	N/A	N/A	
Normalized Quantity	1194.2	N/A	N/A	
Unit	<input type="text" value="MWh"/> <input type="button" value="Calculate"/>			

You do not need to report in the same units each year. Data from previous years will be shown in the unit that was used to report in the previous year (the unit will be shown in the Unit menu). If you choose to report in a different unit, enter the reporting year data (in that unit) and set the unit menu to match the new unit. When you hit calculate, previous years will be converted to the new unit to match the reporting year.

Impact Report — Step 4

Enter cost saving amount and any additional information.

If you do not have any information to include, enter 0 for the cost savings and NA for additional information.

*** Step 4:** Cost Savings Last Year (do not include savings that resulted from reduced utility rates, etc. Only use those that resulted from pollution prevention efforts):

\$

*** Additional Cost Savings Information:**

After Report Submission

- **After reports are submitted, DEQ staff will review the report.**
 - Facilities may be contacted if the reviewers identify areas of the report in need of revision or further clarification.
 - If not contacted, facilities can expect that their report is final and will be made publicly available and/or used for VEEP program evaluation and outreach purposes.
- **Can reports be revised after submittal?**
 - During the review period, facilities cannot access the report directly. For revisions, contact Keith Boisvert at (804) 698-4225 or keith.boisvert@deq.virginia.gov or Meghann Slattery at (804) 698-4122 or meghann.slattery@deq.virginia.gov.

Please contact DEQ with any questions.
